Claim 28 was indicated as having allowable subject matter because the prior art of record does not teach or render obvious the total combination claimed, including a cover slidably held on the reduced-size housing over the standard-size key arrangement and having flanges formed at lower ends of side edges cooperating with the slots, the flanges extending along the lower ends and toward each other at approximately 90 degrees, and the cover having a substantially flat top with an extending portion on one side to cover and cooperate with a holding portion formed on the reduced-size housing to firmly capture a USB connector therebetween.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
